### LAS VEGAS

Las Vegas has re-invented itself as the ultimate foodie destination. "Sin City" still has more entertainment and gambling than anywhere else. Now they also have everything any food enthusiast could want... incredible restaurants, celebrity chefs, exquisite cuisine, unconventional cocktails, amazing wine and some of the world's best beers.

I've visited Las Vegas more times than I can remember. On this trip I spent my time exploring some of their finest hotels, restaurants, bars and lounges. Every destination exuded a unique charm.

Here are my favorite places and recommendations from my trip:

## La Cave, Wynn Las Vegas

Indoors, the restaurant is intimate and relaxing. We were seated outside, where the garden-inspired patio offers a beautiful view. The dishes at La Cave are large enough to share, with excellent pairings from the extensive wine selection.

### RECOMMENDATION:
